MEMORANDUM FOR THE RECORD

SUBJECT : Notes on DCI's Morning Meeting

1. The undersigned reported on OX and LANYARD per OSA Daily Schedule Recap of 2 August. (OX 5332)

2. I also reported on the carrier flight tests scheduled for Monday. General Carter wants to be informed immediately on co-ordination with NRO and the Navy. He wants specifically to know whether he should go to the Chief of Staff to tell them the details of the plan. Action on this has been passed to [REDACTED] of OSA.

25X1A

25X1A 2. The next thing which was of interest to DD/R is that General Carter is concerned about the number of Agency components providing him with papers on the Indian problem. Four separate papers were provided, and DD/R had to co-ordinate them for him. He made a strong plea that [REDACTED] should be in charge of any surveys or other work which was going on. I told him that the team that was going was largely DD/R personnel, but co-ordination had been accomplished with [REDACTED]. Off the record, I think I was wrong in this in that it is a joint team I found out later.

25X1A

3. The last item is that General Carter wanted us to move immediately into the implementation of the Purcell Panel recommendations. Dr. Wheelon told him action was being taken.

4. General Carter announced that the DCI before leaving left an unsigned memorandum saying that all Agency senior officials should be encouraged to take vacation that is coming to them!
